GLASS-MAXX

QUALITY AND RELIABILITY FOR EVERY JOB

S800

COMPACT AND VERSATILE

The Glass-Maxx S800, with its many configurations and expansion options, is suitable for the most challenging projects. Through the optional support risers and extension tubes, glazed facades, sliding doors and the largest windows can be installed easily and quickly.

Features and specs:

- Usable both as spider and line-shaped lifter due to the narrow main unit
- Adjustable tilt mechanism allows for easy inside glazing
- Exchangable shortened lifting arm specifically for inside glazing
- Compact to store and easy to transport using the transport trolley
- Machine weight: 65 - 85 kg

Additional options:

RADIO REMOTE CONTROL

EXCHANGABLE LIFTING ARM

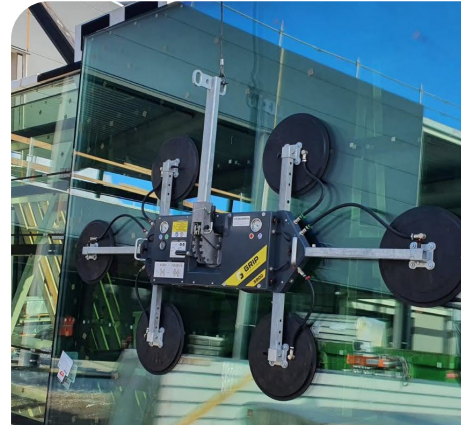

TRANSPORT TROLLEY

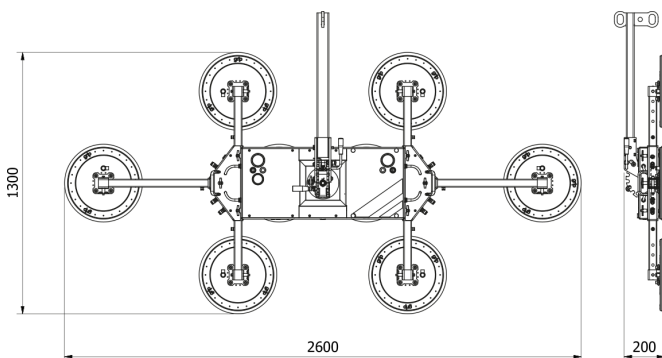

TRANSPORT BOX

EXCHANGABLE BATTERY
